## **Abstract**

Having knowledge about something specific and trending to your field has become such a mania that a new platform is being created every second of every minute of every hour of every day. An idea sharing is your best bet for a voice among the online crowd. Simple platforms that are just used to gain common info were usually the work of a single individual occasionally of a small group and often covered a single subject. More recently, Idea sharing platforms are in trend with posts written by large numbers of scholars and professionally edited. Ideas from newspapers, other media outlets, universities, think tanks, advocacy groups, and similar institutions account for an increasing quantity of block traffic. Idea sharing platform can also be used for earning money through one's ideas, and to maintain or add content to profile or block. These platforms contain the Information of various things related to Technology, Education, News, International, Business, Sports, Entertainment and ongoing college activities. The main aim of this project is to let people share and receive ideas and to earn money by your ideas with the help of our

website or application. People can also gather the information from site and app as well and can give their feedback and create their own profile and block respectively. People can post their relatable views and thoughts and analyze themselves. Besides all such core functionalities, the application also includes features like FAQ, request, feedback etc. so as to provide a satisfactory user experience.

## **Introduction**

Our Motto is to exchange the ideas and grow the knowledge. An immense amount of knowledge that would be helpful to many people is currently only available to few -either limited to people's head or only available to selected bunch. We want to link the people who have knowledge to the people who are in need of it, to unite people together with different outlooks and to charter everyone to share their knowledge for the benefit of other people. They can earn through their ideas too. Our products and services are focused on knowledge sharing and advertising.

### **About Meraidea: -**

It cheers up all the scholars and those who really have a good knowledge about something to share their ideas and showing those ideas to others can brace the thinking. MERAIDEA empowers all the sharers and gainers to have a sense of association, togetherness and duty which play essential role in their encouragement and creation. MERAIDEA can be used as idea contributing platform ,idea management platform and innovative ideas for starting up something new and for already existing

firms. One can definitely earn money if he/she has the tendency to give good ideas.

### **How it works:-**

#### **ASK, GET AN EFFICIENT ANSWER**

Our Motto is to exchange the ideas and grow the knowledge. An immense amount of knowledge that would be helpful to many people is currently only available to few -either limited to people's head or only available to selected bunch. We want to link the people who have knowledge to the people who are in need of it, to unite people together with different outlooks and to charter everyone to share their knowledge for the benefit of other people. They can earn through their ideas too. Our products and services are focused on knowledge sharing and advertising.

## **What the platform provides**

MERAIDEA is a idea sharing platform where questions & queries can asked, answered, edited and organised by the community of users. Here, the users can collaborate by editing and merging the question by editing and suggesting edit to other relevant users. Users can open an account by using their Google or Facebook ID or they can create an account on Quora by registering their Email ID and filling in the necessary details.

MERAIDEA allows its users to ask questions, merge questions, follow a question, answer a question, request to answer a question, suggest edits, upvote, downvote, thank, comment, share and bookmark. The website and application also allows the users to go anonymous while asking a question or answering a question.

## **What you should do with the help of this platform:-**

- Appreciate each other's content and having small circle of good people you find here.
- Telling the truth and expressing real life experiences.
- Add relevant picture for your answer to explain the depth of your feelings.
- Accept other's point of view and understanding that each coin has two sides.
- Spend whole day writing and approaching towards the best content.

## **In next upgrade we're thinking to:-**

- Create a time-bound forum inviting ideas from scholars that can solve your query challenge.
- Define clear evaluation criteria to ensure relevant and focused ideation.
- Promote the crowdsourcing initiative.

## **Implementation:-**

- Plan how to roll out the initiative on realistic terms, based on its advantages and possible barriers.
- Define and communicate the expected outcome of the initiative, and track it through metrics.

The MERAIDEA app is your go-to platform for crowdsourcing great ideas from your targeted users. With its features which comes with a simple and intuitive dashboard, set up idea challenges for your staff in a jiffy. There's no need for any corporate emails as your employees can seamlessly share their ideas on the platform through their mobile phones. Data stays safe as Meraidea is secure.

We want our platform to become the right platform to get idea sharing platform, mainly idea sharing platform – solving your queries in right way. Here, you will get innovative ideas that come from creative minds. It is the right platform to evaluate, consolidate and implement innovative ideas for business growth and staff engagement.

## **Technologies Used:-**

Backend languages-php,mysql

Frontend languages-HTML,CSS,Java Script

Bootstrap(Frontend framework)

Android language-Java

Visual Studion and Android Studio

Xampp Server
